

Combined Nuclear Pension Plan (CNPP)

CNPP fund factsheets for New Joiners, AVC and SPPP members (excluding GPS and Nirex)

New funds were launched in December 2013 for New Joiners, AVC and SPPP contributors. For the first 12 months after their introduction we are unable to show past net performance of these funds. In the meantime, we will publish the fund factsheets of the underlying BlackRock product.

For each CNPP fund the underlying BlackRock product is identified in the table below.

CNPP Fund	Underlying BlackRock Fund
CNPP Global Equity Fund	DC Aquila 50:50 Global Equity Index
CNPP UK Equity Fund	DC Aquila UK Equity Index
CNPP Global Equity (ex UK) Fund	DC Aquila World (ex UK) Equity Index
CNPP Pre Retirement Fund	DC Pre-Retirement Fund
CNPP Index-Linked Gilt Fund	DC Aquila Over 5 Year Index Linked Gilt Index
DC Cash Fund	DC Cash Fund

Trustee
Combined Nuclear Pension Plan

DC Aquila (50:50) Global Equity Index (Historic)

Defined contributions

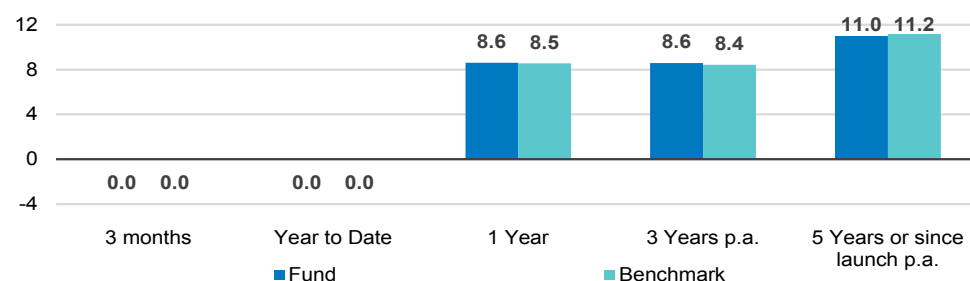

Fund objective

Invests primarily in UK and overseas equities and aims to produce a return in line with its benchmark. Approximately 50% of the Fund is invested in shares of UK companies and the remaining 50% is split equally between shares of companies in the US, Europe ex-UK and the Pacific Rim. The fund aims to provide a return consistent with its benchmark.

Relative Risk Profile

These ratings give an indication of the risk level of the fund only in relation to BLL's overall fund range.

DC Aquila (50:50) Global Equity Index (Historic)

The value of your plan depends directly on a number of things, including the level of your pensions savings, charges, investment returns and the annuity rates available to buy your pension income when you decide to take your benefits. Levels and basis of, and reliefs from, taxation can also change.

Any money that you invest in the plan is tied up until you take your retirement benefits. You cannot normally take the benefits until at least the age of 55.

The value of investments can fluctuate. Fluctuations may be particularly marked in the case of a higher volatility fund and the value of an investment may fall suddenly and substantially. changes in exchange rates will affect the value of overseas investments. Emerging market investments are often associated with greater investment risk. Two main risks related to fixed income investing are interest rate risk and credit risk. Typically, when interest rates rise, there is a corresponding decline in the market value of bonds. Credit risk refers to the possibility that the issuer of the bond will not be able to repay the principal and make interest payments.

Securities Lending - To the extent that this fund undertakes securities lending it will receive 60% of the associated revenue generated and the remaining 40% will be received by BlackRock as the securities lending agent. Securities lending revenue sharing does not increase the costs of running the Fund.

Regulatory information - This document has been Issued by BlackRock Life Limited ("BLL"), which is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. The Fund described in this document is available only to trustees and members of pension schemes registered under Part IV of the Finance Act 2004 via an insurance policy which would be issued either by BLL, or by another insurer of such business. BLL's registered office is 12 Throgmorton Avenue, London, EC2N 2DL, England, Tel +44 (0)20 7743 3000. Registered in England and Wales number 02223202. BlackRock is a trading name of BLL.

Risk Warnings - The information contained herein has been taken from trade and other sources which we deem reliable. We do not represent that such information is accurate or complete and it should not be relied upon as such. Any opinions expressed herein reflect our current judgement and may be subject to change. This document is intended for information purposes only and does not constitute investment advice or a solicitation of an offer to buy a policy or to invest it in the Fund described herein. Investment in the policy, or the Fund described in this document may not be suitable for all investors. It is recommended that you obtain independent advice prior to investing. Any objective or target will be treated as a target only and should not be considered as an assurance or guarantee of performance of the Fund or any part of it. The Fund objectives and policies include a guide to the main investments to which the Fund is likely to be exposed. The Fund is not necessarily restricted to holding these investments only. Subject to the Fund's objectives, the Fund may hold any investment and utilise any investment techniques, including the use of external insurance funds, securities lending and derivatives, permitted under the FCA's Conduct of Business Sourcebook. © BlackRock Life Limited, 2011. *The benchmark and the underlying investment strategy take into account a number of factors including current expected longevity of immediate annuitants, the yields available in the corporate bond market and the types of annuities generally purchased by defined contribution pension investors in the UK. The constituents of the benchmark and consequently the investment strategy will be subject to an annual review and may be updated should we decide that other factors need to be taken into account.

Emerging market investments are often associated with greater investment risk. Two main risks related to fixed income investing are interest rate risk and credit risk. Typically, when interest rates rise, there is a corresponding decline in the market value of bonds. Credit risk refers to the possibility that the issuer of the bond will not be able to repay the principal and make interest payments.
