The two new Plan administrators will be introducing improvements to the service you receive. Over the next six months both Plan administrators will be introducing new on-line services for you to access your pension information. Due to the nature of the different benefit types you will have different types of functionality depending on your category of membership. On Equiniti's site you will be able to run some calculations and see copies of your benefit statements from 2019 onwards. If you are receiving your pension you will be able to look at your payslips, change your address along with other information. If you are a DC member, on the Aegon site you will have the ability to model different scenarios for your retirement and make changes to your investment choices. Once both sites are up and running you will be given login details directly from the administrators.

Please note, due to the transition of administration records, development of new systems and processes the Scheme Administrators are undertaking a prioritisation of work-scope. Both Plan administrators are working hard to ensure all members receive information and payments in a timely manner and the return to business as usual timescales.
